ORDER OF SALE ISSUED.

TREET RAILWAY SYSTEM OF ST. JOS-EPR TO GO UNDER FORECLOSURE.

It Will Be Sold to Satisfy the First Mortgage, Bonds Held by the Central Trust Company of New York.

At 7 o'clock last evening, after hearing arguments presented in the case, Judge Philips, in the federal court, granted the decree of foreclosure against the St. Joseph Traction and Lighting Company, and ordered the property sold to satisfy the first mortgage of \$1,000,000, held by the Central Trust Com-

pany, of New York, as trustee. The suit in forcelosure was originally brought in the division of the court at St Joseph, but, owing to many reasons, it was desired to have it transferred to the division of the court at this point, and it was so transferred yesterday morning, and the pepers filed with the clerk shortly before

The attention of the court was given to other matters during the afternoon, and it was after 5 o'clock when the case was first presented to the court in chambers.

In the bill of particulars, the plaintiff

In the bill of particulars, the plaintiff asked the court to declare its claim to the amount sued for as a prior lien on the property, both consolidated and separate, a decree of foreclosure, the appointment of a receiver to handle the property under the directions of the court, and an injunction to prevent the company's officers from disposing of or incumbering the property during the pendency of the action. There was nothing, however, insisted upon, save the decree of foreclosure, and, after hearing the matter set forth at length, the court granted the decree and ordered the property sold.

Mr. Charles A. Pollock, of St. Joseph, was appointed as special master in chancery to make the sale under the directions of the court sale is to take place within a reason-

The sale is to take place within a reasonable time, with due regard for the interests of all the parties interested.

The property included in the order is the consolidated street railway system of St. Joseph, which was developed and expanded for rapidly during the growth of that city some years ago. It embraces several electric lines, and is a very valuable piece of property, as it covers the city very generally, and also reaches two of the parks of the city.

The attorneys and others who came to the city to attend to the suit all returned to St. Joseph last evening.

Suit Over a Pump.

A Kansas irrigationist is the defendant in a suit brought by the Weber Gas and Gasoline Contpany, of this city, to recover part of the purchase price of an engine sold to the defendant, J. W. Higgins, Jr. Mr. Higgins has a large ranch at Hope, Kas., and, becoming a convert to the irrigation idea, he purchased an engine to pump water on his broad acres. He claims that the engine was faulty, and did not work properly, and, despite the fact that the company replaced the defective parts, he remained dissatisfied, and alleges that the engine is not the required horse power. The company takes issue with him on this proposition, hence the suit.

met yesterday in Judge Stiles' office in the Massachusetts building, and proceeded at once to the office of President Walton H. Holmes, of the Grand Avenue Cable Company, where, through Judge Stiles, the chairman of the committee, they unfolded their plan of having the cable company build an electric line extension from the Fifteenth street terminus of the cable line to Evanston, there to connect with the Kansas City & Independence Rapid Transit line, making a short cut into Independence. The committee was composed of Judge E. H. Stiles, O. H. Queal, Frank Hardesty, C. C. Dourlass, Judge Philip J. Henn and Harmon Bell. Judge Stiles, as chairman of the committee, made a full statement of the advantages sure to accrue, both to the road and the people, by the building of the proposed extension, and stated that most of the property holders, if it were necessary to obtain the road, would be willing to meet the cable company on any fair and reasonable grounds in the way of a bonus.

President Holmes stated, in reply to the proposition of the committee, that at present no action could be taken by his company in the malter because of arrangements now being perfected by which the Grand avenue cable road is to be consolidated with other roads of the city, which would be completed next month, when he would, if the property holders so desired, take pleasure in submitting their matter to the board of the consolidated companies. Mr. Holmes further stated that so far as he is personally concerned, no extonsion will be made save on a business-like basis, He does not think that at present Independence needs any more railronads, especially from Kansas City, and does not see how the business along the proposed extension can possibly insure its successful operation if it is built. When the committee mentioned to Mr. Holmes that some day the city might purchase Washington park as one of its system of parks, and this being the case, it would greatly enhance the business of the proposed electric line, and alone might make it a paying

CITY TAXES DUE TO-MORROW.

Treasurer Green Has Employed Extra Men for the Expected Rush.

City taxes fall due to-morrow. Treasurer Green has provided for the an-ticipated run by putting on the extra men allowed by the ordinance passed at a re-cent session of the council. He has also allowed by the ordinance passed at a recent session of the council. He has also prepared a plan by which he will be able to determine when a man does his full duty. The personal tax books are numbered from the first receipt to 20 in series, and each man who will work on the personal lists will be given a book. All he will have to do is to fill out the receipt and pass it along without affixing his name as deputy. If he gets away with as fair an amount of work as his prior talk would indicate, he will be retnined. If not, he will not do many days work in the office.

The turriles, with the land tax books, have been taken from the vaults, and swing into position near the cashier's dosk. The tax rolls will be placed on the desks in regular order, according to the index of sub-divisions, and everything done to facilitate business. Mr. Green says that if the people will appear, he will handle 50 per cent of the taxes in the time allowed for the deductions of rebates. He expects a heavy attendance, as the lists have been coming in very repulary, and inquiries as to the amounts against certain lots, etc., have been numerous and frequent.

Sufferers From Piles May Learn of a Harm-

less, Lasting Cure. There are plenty of pile cures which give relief, and sometimes cure a mild case of piles, but there is only one which can be lepended upon with certainty to cure stinate, long standing cases, and that is the Pyramid Pile Cure. Indorsements and testimonials are re-

ceived daily from men and women whose integrity and reliability are above question, and in this connection a letter re-ceived from the Rev. James H. Wesbrook, of Howne, Mich., may be of interest to pile sufferers who have sought in vain for a cure. He says:

I have used the Pyramid Pile Cure and I know that it is all that is claimed for it. I had been troubled with piles more or les for about eighteen years, and I had tried other remedies, but the piles grew worse until about ten months ago I used the Pyramid Pile Cure. It gave almost instant relief and I have been free from piles ever since,—Rev. James H. Wesbrook.

Mr. Frank Smith, the well known and popular druggist of Ypsilanti, Mich., in speaking of the Pyramid Pile Cure, says: "A year ago I sold to C. C. the building. Reduced rents have been offered, and the officers feel that it would be as well to maintain control for a full year as to pay the rent until a new building can be erected. It would require several ments to get a suitable building in condition for occupancy. Meanwhile, Colonel Simonds is ready to consider any proposition any property owner may have to submit for a new armory.

Colonel Gross, Captain Kinneard and Captain Tew, as a board of survey, but in the entire day yesterday checking up the property charged to the regiment. They found that of the original issue very few uniforms are in any condition for use at present. A singular feature of the work was the discovery of quite a large number of dress conts. These garments are not issued by the war department to the states, and cannot be figured in with the report of the board. Dress coats abound, but in most cases there are about one pair of trousers for each platoon of a company.

The work of the board was completed with the exception of the inspection of the property in the hands of Company F, Captain Henley, of Independence, Captain Collins has a separate armory, and the board found nobody to let it in when the members asked for the keys. Rev. Father Ferdinand Santipolo, who obganized the parish in November, 1832. The
church structure will be of brick, with a
large stone basement. Its dimensions will
be 188 by 59 feet, and its cost will be about
\$2,500. This amount, however, does not
cover the cost of the interior, such as pews,
altars and decorations.

The erection of the church serves as a
good illustration of the rapid growth of
Kansas City's Italian population. When
the parish was established by Father Santipolo, services were held in a small room at
Fifth street and Forest avenue. Then
larger quarters were secured on Independchee avenue near Locust street. The increase in the numbers of the parish soon
necessitated another change, and a removal
was made to No. 630 Fast Fifth street. Finally the congregation has grown to such
proportions that a large church building is
needed. Hence the Holy Rosary church.
